

(Continued from Page 1)

led the opposition on the council.

The conditions which the committee proposed to the council included:

(1) That the owners of the property dedicate to the City 10' of their property along the Carson st. frontage for the widening of Carson st.;

(2) That no building shall be built less than 75 feet from the center line of Carson st.;

(3) That the owners of the property shall agree that the north 15' of the buildings fronting on Carson st. be restricted for office space only;

(4) When the existing buildings within the area 75' from the center line of Carson st., are removed no other building shall be erected within this 75' and that an additional 15' for offices only be maintained, providing a uniform setback along the Carson st. frontage;

(5) That the owners of the property agree to maintain parking on as close to a 1 to 1 ratio as possible;

(6) That buildings to be erected will be modern with attractive architectural facades, per Exhibit A-1, along with appropriate landscaping to further beautify them, in keeping with the homes and school along Carson st. Also, as a condition of approval, the petitioner will agree in writing to the following:

a. Provide at least one adequate service road from Oak st. to Crenshaw Blvd., to relieve traffic congestion on Carson st. before completion of any building in their industrial tract;

b. Post adequate signs within their industrial tract to direct egress traffic out of said tract to Crenshaw Blvd., and Jefferson st., again to relieve traffic congestion on Carson st.;

c. Promptly comply with any reasonable requests for the Chief of Police and/or the Traffic Commission that concerns traffic control, which may arise from their industrial tract;

d. That no additions be made to present buildings.

**MYSTERY...**

(Continued from Page 1)

motel early Monday morning they learned that their father was missing.

Manestar had taken the check book with him but his coat, hat and glasses were found in the motel office. His car was parked outside. While some money had been taken (about \$40) other money had been left behind (about \$100).

The key to an adjoining apartment was missing but officers found the apartment lights on.

On of the sons believed that Manestar might have been abducted when showing someone the room. No notes were found and there was no sign of a struggle.

Manestar's wife, Zora, said her husband was in good health and had no reason why he might have taken off on his own.

He was described as 5'9", 180 lbs., gray-bald, brown eyes, heavy build, wearing gray slacks, a light blue solid color sport shirt with long sleeves and brown loafers.

**VICTOR...**

(Continued from Page 1)

the Redondo school district, however.

Redondo school officials, opposed to the idea of splitting city and school district boundaries and jurisdiction, said that South Bay trustees, at the request of Torrance school officials, recently adopted a policy resolution which stated that the city and school district boundaries should be co-terminus.

**7 Kiwanians Attend Mid Winter Meet**

Seven members of the Kiwanis club of Torrance attended the Mid-Winter Conference of the California-Nevada-Hawaii district of Kiwanis International, at Fresno, California, recently.

The group was headed by club president, Joe Doss, and included vice president, Jay Barrington and Ken Anderson; secretary, Angus Mc Vlear; committee chairmen, John Johnson, Parke Montague, and Harlan Stephens.

The conference served to aid club members in performing their jobs as officers and committeemen and included talks by high ranking officials of Kiwanis on subjects aimed to aid local Kiwanis clubs in being of more service to their communities.

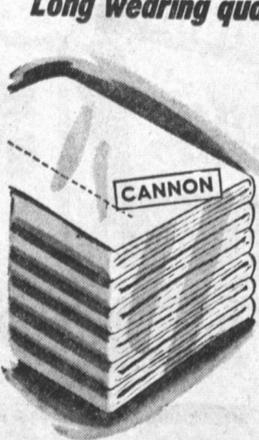

Past District Governor Harold Heimbaugh made a plea to all clubs to donate generously to the Northern California flood relief program being carried on by the Kiwanis district committee.

He told of great disaster which still is causing much suffering and the further need for funds to assist persons who were victims of the flood.
